Outline reasons for PAP here

Option one- applicant falls within scope of interim solution:

As the right is not derived from the Directive, there is currently no provision within the Regulations to issue documentation on the basis of the *Ruiz Zambrano* judgment. Amendments to the Regulations are expected to follow later this year. Whilst those changes are progressed, it is accepted that **you/your client's** application has provided some information which may bring **you/your client** within scope of the judgment.

As such we have enclosed a certificate of application which allows **you/your client** to work whilst we make a substantive decision on **your/your client's** application.

When the Regulations have been amended to effect the *Ruiz Zambrano* judgment, a substantive decision will be made on **you/your client's** application. This may require the UK Border Agency to request further information in order to confirm that **you/your client have/has** this right to reside.

Option two- applicant falls outside scope of interim solution:

Unfortunately, the submitted documents are insufficient to establish that **you may /your client may** have a right of residence in accordance with this judgment.

Further information on the implementation of the *Ruiz Zambrano* judgment and how to make an application on the basis of this judgment can be found on our website:

Yours **sincerely/faithfully**
