

**Request:**

1. Could you please be so kind to clarify whether the Children Centre's Service is integrated within Northgate's service?
2. Also, could you please clarify the method of licensing you're using then?

**Clarified by applicant:**

The question refers to:

1. Children Centres' Management IT System;
2. Children Social Care IT System

**Response:**

1. We do not have a separate Children's Centre management information system, and we do not have any functionality within the Northgate system which is aimed specifically at Children's Centres. Children's Centres make some limited use of the Northgate CCM system where appropriate, e.g. Child in Need functionality.
2. The licence is a local authority licence.
