Kerriann

Thank you for your e-mail confirming that we can access a number of the ponds at short notice. I will ask our ecologist to liaise directly with directly.

Going forward our lands team will be dealing with any lands access issues and I will ask them to contact you directly with regard to your query regarding meeting costs incurred by the council.

Regards

Consents Team

**Subject:** EXT || RE: National Grid Proposed - Substation at Chilling

Dear

Thank you for sending through the documentation relating to the proposals for the substation site at Chilling. That is most helpful. As we discussed yesterday, due to the timescale requirements on the interconnector project and the early stage that your project is at, I will be putting forward a report for member approval which covers the detail of the interconnector cables and also makes mention of your project in order to ensure that members are as fully briefed as possible on the related parts of the scheme.

Our main concern relates to the impacts on Chilling Lane during the construction of the new substation building and I look forward to receiving more information in that regard once your various transport studies have been completed.

As far as the ponds are concerned;  
P3 is not in our ownership  
P1, P2, P4, P5 P6 are all within our ownership and managed by HCC's Countryside Service. Provided that there is no vehicular access required beyond Chilling Lane and no equipment is to be left on site I cannot see any problems with DNA samples being taken next week however please ensure that either you or your ecologists contact the site manager, in advance of the actual visits so that he is aware of who is on site and when.

P7 is also in HCC ownership however is on tenanted property. I note that it is not currently listed as access required however if this changes please let me know and I will arrange access however this will require a longer notice period.

This also seems a timely moment at which to bring up the subject of HCC's fees in dealing with this matter. Clearly we are going to have some officer

2

time involved in dealing with access arrangements and other matters relating to your development and I would be grateful if you could confirm that National Grid will be meeting costs incurred by the Council in this regard.

I look forward to hearing from you further in due course.

Kind regards

Countryside & Rural Estate Manager  
Hampshire County Council

**Subject:** National Grid Proposed - Substation at Chilling

Dear ...

Further to our telephone conversation earlier I attach as background a copy of the letter and illustrations sent to Fareham BC regarding the scheme. (this is similar to information I shared with Karen Murray before Christmas in a presentation). At this stage we are very much in the early stage of our detailed design for the scheme. We will be undertaking surveys to support the development of a suitable route for ALLs and construction traffic. This work is not planned to be completed until this Autumn.

I realise that this is short notice but our ecologists are on site next week and they have asked whether it is possible to do eDNA survey at the same time as the phase 1 walk over we are conducting at our site on Monday and Tuesday. The ponds that we would need to access are Ponds P1, P2, P3, P4, P5 and

P6 shown on the attached drawing. Alternatively could you let me know when it would be possible to arrange access for these?

As discussed I am happy to come down and take you through the scheme in detail when our design has developed further.

Regards

NATIONAL GRID IFA2 LTD – ELECTRICAL  
INTERCONNECTOR - HCC

Notice to HCC 09.05.2016.pdf

Dear

Following the two stage consultation process regarding a new high voltage direct current interconnector linking the electricity transmission systems of Great Britain and France, National Grid IFA2 Ltd are now in a position to submit a planning application for the works.

Hampshire County Council are the freeholder of the land within the application boundary and as such enclose notification as required under the Town and Country Planning Act of the proposed works.

Please find attached a copy of the planning notice issued to you in Monday's post. I have sent you a copy via email for completeness.

Kind regards

NOTICE UNDER ARTICLE 14 OF APPLICATION FOR PLANNING PERMISSION

Proposed development at:

Land at Daedalus Airfield and Monkshill Beach (to Mean Low Water Springs (MLWS)); and land between National Grid substation at Chilling and Brownwich, nr Chilling (to MLWS).

Take notice that application is being made by:

National Grid IFA2 Ltd, 35 Homer Road, Solihull, West Midlands B91 3QJ

For planning permission to:

Description of proposed development

Works to facilitate the IFA2 electrical interconnector with an approximate capacity of 1000 megawatts (MW) extending from Tourbe, Normandy (France) to Chilling, Hampshire comprising:

1. Installation of two subsea high voltage direct current (HVDC) cables between Mean Low Water Springs (MLWS) and landfall at Monks Hill Beach (full details provided with no matters reserved);
2. Installation of two onshore HVDC cables between the landfall at Monks Hill Beach and the converter station to the north east of Daedalus Airfield (full details provided with no matters reserved);
3. Erection of a converter station buildings (maximum height 22m) together with formation of internal roads, erection of security fencing, formation of vehicular accesses and landscaping with associated temporary construction compounds to the north east of Daedalus Airfield (all matters reserved);
4. Installation of up to six onshore high voltage alternating current (HVAC) cables between the converter station and the landfall at Monks Hill Beach (full details provided with no matters reserved);
5. Installation of up to six subsea HVAC cables between Monks Hill Beach and the MLWS (full details provided with no matters reserved);
6. Installation of up to six subsea HVAC cables between the MLWS and landfall at Brownwich, nr Chilling (full details provided with no matters reserved);
7. Installation of up to six onshore HVAC cables between the landfall at Brownwich nr Chilling and a new substation being developed by National Grid Electricity Transmission Plc (NGET) adjacent to the existing cable sealing end compound at Chilling Lane (full details provided with no matters reserved);
8. Installation of fibre-optic cable(s) with the HVAC and HVDC cables; and
9. Formation of public open space in land north of the airfield, including creation of footpaths and cycleways, grassland planting and tree planting (all matters reserved).

Local Planning Authority to whom the application is being submitted:

Fareham Borough Council

Local Planning Authority address:

Civic Offices, Civic Way, Hampshire PO16 7AZ

Any owner of the land or tenant who wishes to make representations about this application, should write to the council within 21 days of the date of this notice.
