

Consolidation Activity

When you have completed this learning you will be implementing what you have learned with claimants making a New Claim initially. In about four to six weeks' time you will be invited to a consolidation workshop

The workshop will give you the opportunity to discuss your experiences of working with the Claimant Commitment so far and to share examples of good practice.

You should bring along to the workshop:

- Three examples of Claimant Commitments drafted for your claimants, including any which you particularly want to discuss with the group (make sure you remove all personal details).
- These claimants' commitments and the outcomes from their 'My Work Plan' booklet
- Three examples of:
 - lessons you have learned since attending the event relating to the Claimant Commitment (JSA Regime)
 - any issues you have faced; and
 - good practice you wish to share.

You will be informed later about the location and date of the workshop.
