Hi [REDACTED],

All looks good to me but the LMS CIS system is more accurate than mine and [REDACTED] might want to get [REDACTED] to confirm.

Best regards

Sorry [REDACTED], [REDACTED] read through the email which I sent on Friday. I had incorrectly included 2 sites, which I have subsequently removed from the list below.

You are the only individual within OS who has had site of this.

Cheers

Hi [REDACTED] – not quite sure what you mean by ‘corrected the content’, was this completed directly with OS?

[REDACTED],

Further to my earlier email the following at the park Ps which need to be removed. This data is on the 25K ... so I appreciate this may be more complex to rectify. However, if I can at least lodge this request it can be processed in due course.

If you require further info please do not hesitate to get in touch.

Many thanks and have a good weekend.

Hi [REDACTED],

[REDACTED]

I presume we are talking about the digital apps – rather than the paper version (paper is much harder and takes much longer to see the changes filter through)?

If It is the digital version, please send over the details and I will see what I can do.

Best regards,

[REDACTED]

[REDACTED]

I hope all is well.

We're pulling together some mapping information for the Home Counties area and a couple of the parking Ps located on the training area have been queried. A colleague will be visiting and double checking locations.

If it comes back that the Ps are misleading can I get in touch with you in a similar fashion to the Routes users have plotted to have them removed or edited – e.g. if they need to be moved across the road to sit outside the training area.

Many thanks
