Subject: AHEP CEMD Approval

Good Afternoon Val,

Thank you for your time yesterday.

Dragados and Aberdeen Harbour Board are keen to commence with construction to ensure compliance with Marine Licence (05965/16/0) condition 3.2.11 which states *that we must ensure the construction of the breakwaters does not commence between 01 June and 31 August*. A key part of the breakwater works is the construction of the access road and this would require swift commencement early May 2017 to allow sufficient time to complete and then commence the actual breakwater works prior to June 01.

Please could you review and indicate whether or not you would be happy to agree with the following proposed timeline of approval for the CEMD.

1. Final version of the CEMD delivered to all consultees which we have taken into account and responded to all comments raised during the initial round of reviews - 11/4/17.
2. Response to TS on this second, final version of the CEMD – by close of play on Tuesday 25th April (that way we have given 2 weeks).
3. TS/MS aim to respond as quickly after this as possible especially if there are no outstanding issues – on or before 5th May 2017.

We are aware that SNH have indicated they would not be in a position to return responses until the 27th, but feel it would be prudent to ask all other consultees to return theirs by the 25th April 2017.

Please let us know your thoughts.

Thanks & Kind Regards
Craig

Regards,

Craig Hynd
Environmental & Consents Manager
