OFFICIAL:SENSITIVE

Sue as Kat says our PH 1-1 discussions with you and Pete confirmed you agreed to develop the current design on the basis that it did not preclude his preferred option in the future should funding become available. I would advise that we craft a draft reply for you, which given other pressures I would expect to send to you by, let's say, 13/12/19 and if you are happy with that we can then send after you have cleared that draft – OK?

Thanks Anthony,

Sue - I think you fully aware of the issues [REDACTED] with regards the pond design we have been developing as you have been round the Park with Zoe to discuss the design. [REDACTED]

[REDACTED] unless we deliver [REDACTED] large lake and open up the combined sewer. Our proposed scheme doesn't prevent this in the future but it is not viable at the current time. Are you still happy with progressing the ponds to planning as previously agreed?

With regards the swale in zoo field, we are aware the scheme is not complete and we have gone back to Argyle already to ask them to resolve the remaining issues. I will chase where we are with ensuring they complete the works as required by planning and through our licence to work in the Park.

How would you like to respond [REDACTED] I will pull something together in response but would you like it to come from yourself or if not I am happy to send it?

Kat

You need to be aware and sighted. Please discuss with Sue what response and support she would like re this.

Thanks

A
