NARCON

DRUG EDUCATION

**DRUG PREVENTION
THROUGH EDUCATION**
Schools Presentation Programme

In most cases the Narconon personnel who deliver the lecture format are ex-drug users themselves and this avoids them being rejected by attendees as authoritarian figures with no experience on the street. The subject of drugs is neither glamourised nor embellished with countless horror stories. Instead a balanced mix of cold hard facts, personal experience and a sprinkling of humour has proven over the years to be the right blend to really impinge on students.

Although the Narconon Truth About Drugs lecture has been the mainstay of the organisation's push for greater drug awareness there are other presentations available which take cognizance of different groups and their needs. Amongst these are formats for Primary Schools, Puppet Shows for the very young, workshops for teachers, specific presentations for PTAs, workshops for parents, formats for company personnel and many more. If you have a specific requirement we are happy to assist in customising a presentation to meet your needs.

Narconon UK also offers Peer Leadership Programmes for schools, which in many cases can supplant bad influences in playgrounds etc. and replace them with youth who know for certain the perils of drugtaking and are able to exert an influence over fellow students in a positive direction.

Above all else is the actual response from attendees and teachers regarding Narconon's efficacy in the field of drug education. The following column features extracts from some of the many, many positive letters and comment sheets we have received over the years.

"....it really touched me and knocked me back a bit. Everybody paid attention, more attention than we usually do! Loads of people were talking about it afterwards."
– Year 10 Pupil, Sexey's School

"I think my views on alcohol and marijuana have become different. I now know how bad even the 'softer' drugs are and in what ways they can effect you."
– Pupil, Sherborne School

"....the feedback from the girls has been very positive. The staff and I also benefited enormously from having your expertise."
– PSE teacher, St. Edmund's School

"I could use what I have learned to prevent myself taking them as I now know the risk."
– Year 9 Pupil, Downton School

"I thought it was very interesting and now I would never never take drugs or drink too much. You did get the message through very well."
– Pupil, Branksome Heath Middle School

"The talk really did impinge on the students."
– Teacher, Greenfields School

Dear

Thank you very much indeed for participating in our PSHE drugs half day. Both your speakers were excellent and related extremely well to the pupils. It is always a worry when you invite 'outside speakers' you are never sure how well they will communicate with the youngsters. Both held the students attention 100% of the time and without a doubt got this message across. Pupils do evaluate the individual sessions – the following are just a couple of quotes from them:

" was really good and we could easily understand what she was saying. You got really involved, especially as she was so young"

" was really cool and we found it easy to understand him. He didn't just tell us about it he acted some of it out".

Teachers sit in on the sessions as well and their comments on were very complimentary and positive.

Once again can I say thank you very much. I am sure your sessions will help our students to make "Considered Decisions".

Yours sincerely

Dear

Please find enclosed the cheque as promised. The talk was received very well; I was excellent and, as a result, quite a lot of discussion was generated after the lesson. May you pass on our thanks to and, as a consequence, we will be using Narconon again next year.

Thanks.

Yours sincerely,

Dear

Thankyou ever so much for the highly enjoyed and educational talk about the ever growing concern about drugs and their horrring effects they can have on people and their families. I myself am proud to say that I will now refrain completely from any types of drugs and narcotics

Thankyou again, and I hope that you will continue your work with Narmons to prevent the use of drugs in todays youth

on behalf of years
yours sincerely.

Let me start this by saying I'm now 24 years old, from a very early age I was physically abused and emotionally scarred from all the hate that was put my way. I never had what you could call a normal child hood and missed out on all the good things a child could have. From foster care to children homes and finally prison, I never knew right from wrong and had to educate myself, I think I did well, we got 6 G.C.S.E's, 2 NVQ's and I'm hungry for more. I've no excuse for breaking the law and going to prison, but let me say the whole idea of being sent to prison is to rehabilitate the offender. It just doesn't happen, at all. If it wasn't for and the people who run Criminon I would be still offending and feeling one way, felt 2 1/2 yrs ago. We got a whole new outlook on my life and people around me, pride, respect, self respect and being happy feels good, it's a new feeling for me and I don't want it to go away. Please keep trying to reach out to others because I know everyone needs to be treated with a little happiness.

THE WAY TO HAPPINESS COURSE HAS GIVEN ME A LOT OF HOPE FOR THE FUTURE, ITS ALSO GIVEN ME THE DESIRE TO WANT TO LEARN MORE, AND THIS IS SOMETHING IM LOOKING FORWARD TO,

BUT MOST OF ALL IT HAS MADE ME UNDERSTAND HOW WE AS PEOPLE SHOULD TREAT OTHERS AROUND US REGARDLESS OF COLOUR SIZE OR RELIGION, AS WE ONLY PASS THROUGH THIS LIFE ON EARTH ONCE AND WE SHOULD DO THE BEST WE CAN TO LIVE IN PEACE AND HONESTY WITH EACH OTHER, AND DO OUR BEST TO HELP THE CHILDREN OF TODAY TURN INTO RESPONSIBLE CARING ADULT OF TOMMOROW.

I WILL SPEND MY TIME PUTTING IN TO PRACTICE WHAT I HAVE LEARNED EVERY DAY AND I ALSO LOOK FORWARD TO THE DAY WHEN I CAN TAKE IT ALL OUT OF PRISON AND LIVE A BETTER LIFE FOR MYSELF AND OTHERS AROUND ME.

THANK YOU CRIMINON FOR THE HELP YOU HAVE GIVEN

I have learnt a great deal from the Course as it has helped me to know the importance of some values that I was given as a child.

This Course has taken me further into the understanding of why I must not do certain things even though I know not to do some things, I did not know the effect some of these actions have on other people. Learning and practising some of these rules in the Course has brought me closer to taking responsibility for my actions. I know now to think deep of some of my actions before carrying them out because I know that it can affect people and society around me. I intend to read the book as often as I can ~~has~~ managed as a reminder to me to keep me on track and help me live a better life. I shall try my best at all times to do unto others as I want to be done unto me which means more now since doing the Course.

I was glad to do the Handling the Drugs Course as it gave me a load of valuable information on things that I had little or no information on like vitamins and minerals and how it affects the human body through drugs

With my tutors help I stopped looking in one single Direction about drug use and abuse, I was advised to look at not just the drugs but at the whole Picture, which has made me ^{see} life as a whole different Perspective to what it was.

Compared to my life as an addict, I have become a different Person, along with my own determination to stay clean of Drugs Criminon and Narconon has helped me to become a better Person in the way I treat People and how its relayed back. I have noticed changes in my Persona by thinking about others before I act or say something, which is a good thing for my future. Now Im looking forward downy another course because I seem to always grasp something that in a certain situation ~~comes~~ ^{comes} to mind and thus act accordingly.

I would like to thank my tutor because if it wasint for Her I would still be ignorant to basic facts of life and probably land back in Jail time ~~into time~~

I discovered the way to happiness course through a fellow Prisoner, who like myself thought it was worth looking at, I had a good look and after reading the booklet, I completed the Card and received the Package, I discovered things that I 'already knew about, but had no significance to my life in the past, it opened up my brain to thinking how life itself and how we conduct ourselves from us being young to growing up and looking for a way or life in which we can bring up our own children to recognise the rights and wrongs to pass on from generation to generation and how easy it is to recognise these positive things when we actually look for them because it's all logic. I have had so far a good relationship with my tutor called [redacted], when I completed Parts 1 was complemented and when I was on the wrong track or was off track altogether, she would show me the way forward, the two most important parts being I thought were, "how I should treat people is how I would want to be treated myself" and "Flourish and Prosper" is a path or life in which most people would become happy within themselves I suppose it's such a pity that people lead a life without thought and end up seeing life as a mundane and boring existence and this course has opened up ideas in my own head and has also prompted me to encourage others to do this course.

I would like to thank yourselves and my tutor [redacted] for the help received to complete this course and open my life to a better existence after prison.

Thank you.

I now realise that my actions and behaviour effect that of others, who then rebound upon myself.

I therefore think about my thoughts and actions, and the feelings of others before I say or do anything that effects others.

The Course has made me a much better "Human being," and helped me to think for "myself."

I Just think that it is a pity that it has taken me until almost the age of forty, and a life sentence before I discovered and learned the Course lessons, which would of placed me firmly on the law abiding path, and saved me from the torment that I have gone through, if I had discovered the Course earlier in life.
