Executive Summary 13 May 2019

RHSC + DCN - Little France Programme Board Report 13 May 2019

RIE Health, Safety & Logistics

Health & Safety:

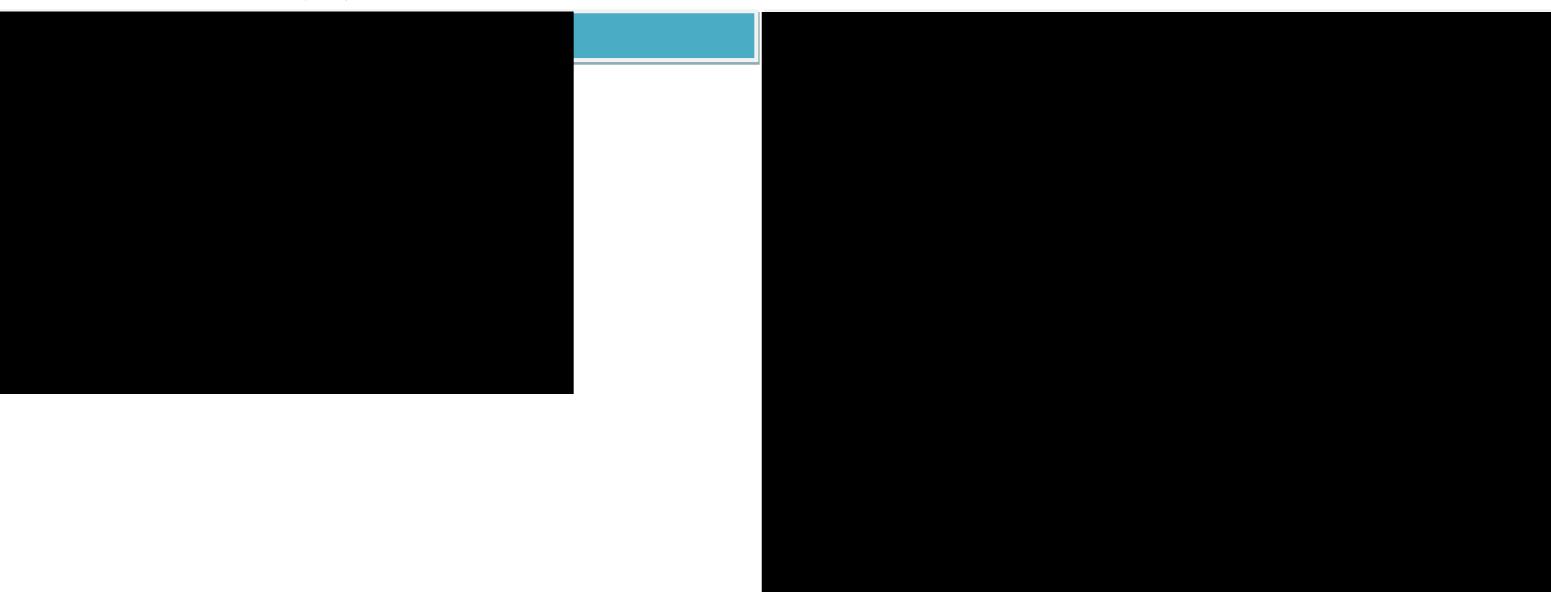

- Pedestrian safety remains a concern with long standing issues still to be resolved in key business areas. Risk of incident remains very high.
- Hospital Square final works package still to be finalised and agreed. Traffic risk will increase during construction works.

Logistics:

- Reduction in large vehicle numbers on site and remains well managed.
- PCI blue light route or bus service routes remain clear of issues while key resources are in place.
- Contractor Traffic Management Plans generally working well respecting blue light routes and NHSL core requirements.
- RHCYP deliveries management remains a safety concern and currently sits at Red Risk status. Increased deliveries schedule will further increase risk if not closely managed.

Stakeholder Management and Communication

- Booking and ordering of various elements of Awareness Campaign are underway.
- Open day events have been agreed to take place on 25th and 27th June.
- · Royal Opening is not confirmed but Royal availability and dates in October 2019 are being explored.
- · Support for decommissioning has been outlined and further information on the decommissioning plans has been requested.
- Support for all three CAMHS moves is being explored.
