

**FOI 000332 Community Safety and Community Engagement Team, Responses shown in bold**

May I request the following for my research paper:

A structure chart of the Community Safety Team and Community Engagement Team (if there is no structure chart, then a list of positions/roles within either team will suffice).

**Community Engagement Team:**

**Engagement and Consultation Manager x1**

**Engagement and Consultation Officer x 1**

**Both are full-time positions and support the Consultation and Engagement activities of the County Council. Both are responsible for the co-ordination of a corporate Communications, Consultation and Engagement Group that provides advice, guidance and support on council (and sometimes partnership) consultations and engagement with communities in connection with these. The officer role is in support to the manager.**

**Community Safety Team:**

**In response to this please see the details attached.**

**Please note: there has been a recent review of Early Help services which included the Youth Offending Service, which the Community Safety Team sits alongside. This review is currently being implemented and will officially launch on 1<sup>st</sup> April 2019. As it stands, it is proposed that there will be a number of changes to the attached structure, however until then, the structure remains as detailed.**
