Current Action Points

	Actions and Decisions from Meeting 22nd March	Responsibility
1	Group support conducting a new survey to assess service users interest in an inhalation facility vs other services (eg shower and laundry facilities)	Exec Group
2	Any major changes re property that falls outwith set meetings, the group will be updated	S. Priyadarshi and M. Mackinnon
3	Arrange for Sharon Hutchinson's report/paper to be circulated to group	S. Priyadarshi
4	Opportunity for group members to get more involved in workstreams, to be further discussed at the next meeting	Exec group
5	Pull together time frames for elements that we know for the project, leaving gaps where we do not have this information	S. Donald

Other Decisions

The group was supportive of Saket and the appropriate executive group members meeting with BBC producers regarding a possible documentary on the new service however caution was noted by several members. Concerns centred around issues of confidentiality of service users, how comfortable staff would feel being filmed in a new environment, filming creating a barrier to people using the service, danger of exploiting vulnerable people and the issue of whether service users would have the capacity to say no to being filmed.
