Dear Sir or Madam

Re: Consultation on Prospectus: A new approach to rail passenger services in London and the South East

Please consider this letter to represent  formal response to the above consultation.

To summarise its position:-

 agrees with the principle of a partnership to better integrate the specification of rail passenger services across London and the South East. It also agrees with the principle the partnership will work to. It agrees with the proposed governance arrangements and the standards for the transfer of inner suburban services to TFL as set out in the document.

Regarding any other outcomes the  would expect to see achieved, as there are no proposals in place to address the chronic problem of the South East Network, the  would welcome further work in this area.

 hopes that its comments will be taken into consideration when determining this matter.

Yours sincerely
