Cc:

All,

I sat in our Philip's meeting with Shanker Singham yesterday. See short note below.

SS has now started at IEA, creating the international trade and competition unit there, taking his whole team from LI. His focus hasn't changed and he'll still be developing policy on trade, competition and regulatory issues. However, the papers they produce are likely to be more technical in nature to provide value for HMG. [REDACTED]
