Comments On The Proposal...

Please refer to my previous objections which are still applicable to third consultation.

I would reiterate that Lindisfarne Road wasn't constructed with through traffic in mind.

Traffic up and down Lindisfarne Road and there isn't any room to overtake.

The area in question was only ever intended as a play area safe from any traffic.

A lot of school children use the path way to and from school without having to worry about traffic speeding through, which is what will happen.

You will also be contributing to more pollution when the Government is committed to reducing pollution

Is it still going to be a private road with the developer responsible for maintaining said road and responsible for the expense of street lighting

We all know what happens when roads get used as "rat runs".

Crowhill Road and Knowle Avenue are examples of this

Please give due respect to all objections raised regarding development of back field

P.S. I will relinquish my request to speak at the next meeting in favour of
