Comments On The Proposal...

With reference to my previous objection this new application makes no effort to make good the objections quoted. No indication to prevent the obvious potential to create a rat run joining up Lindisfarne rd to Grove st, Lindisfarne does not have a pavement and the health & safety risks are obvious with this road crossing two public footpaths is a major concern. I also do not see any impact studies for the residents of Grovewood close as the exit onto Grove st is blind and offset due to the surrounding wall plus the narrowing of Grove st after Grovewood close which only allows for single traffic. This area is a protected green space and was planned as a children's play area when the estate was built and has been in constant use throughout this time, and so I refute the statement in p12 that it has no specific function so my objection still stands.

Kind regards
