I just want to give my objections to the proposed building of 5 3 storey detached houses at the top of Lindisfarne Road. I and my family have lived on [REDACTED] from day one. My two sons played on that green space as do my grandsons now. It is enjoyed by many people, children, dog walkers, walkers. As I understand it this is protected green space and should be kept as protected space. These proposed detached houses are not in keeping with the properties that exist here. Then there is a question over the privacy for the properties on Grovewood. Then there is the question of road safety, turning a public path into a road. This will also create more traffic on Lindisfarne Road and will cause a lot of problems with parking.

Yours faithfully,

[REDACTED]
