We object to the proposed construction of 5 three storey properties at the rear of Grovewood Close on a number of counts.

We understand the need for housebuilding so we are not NIMBYs. If the proposal was for single storey build we would not oppose it. [REDACTED]
[REDACTED]

We are also concerned about the massive disruption to Grove St during construction and the permanent access via Lindisfarne will be dangerous, both roads are not big enough or wide enough to cope.

The footpath at the rear of Grovewood Close which is currently vehicle free will be permanently compromised by vehicles due to the insufficient parking spaces allocated to the new build.

Regards
