Thank you.

With regards to hangars, will ask our members. I guess the answer resides somewhere in the balance between addressing genuine concerns and rejecting objections based on bias that have no place in a middle of a respiratory pandemic and climate emergency. May I suggest perhaps to include the benefits of active travel and costs of lack thereof, in consultation documents? I mean objecting to something as huge as this on the basis that it's ugly or would remove a parking space is something that should be called for what it is. The below is from Gear Change, the national Walking and Cycling strategy. Did you see also the latest [TfL Travel in London report](#)? I was surprised to see that in Brent 45% of people walk or cycle to the shops! Including public transport, 65% do not use a car to go to the shops.

Thank you
Kind regards

Happy new year

All good here thanks and hope you are too.

You must be a mind reader we was discussing school streets this morning and how we are going to manage the review process now the schools are only open for key workers and vulnerable children. If possible we would like to extend the consultation especially for the first batch as this is due to finish at the end of this month. We are waiting to hear back from about the TMO and legal implications of this.

The aim is to install cameras at all school streets that are to be made permanent and to fund with phase 2 funding or S106, we will prioritise the schemes to ensure those most in need of cameras receive them first.

With regards to cycling would it be possible to ask your members if they could share any ideas they have for bike hangar locations with us please. We have S106 funding to install more and whilst we have been inundated with requests we always struggle to find suitable locations, especially ones that don't result in lots of objections during the consultation stage.

Thanks in advance for your help and hope the meeting goes well.

Kind regards

Subject: School Streets

Dear

Happy New Year! Hope you are safe and well.

We have our monthly meeting tonight and I was wondering what is the position over School Streets now that schools are closed?

Will the consultations end on the same date or will they be paused? Some of the earlier schemes are due to end at the end of February.

Is there any indication from the Phase 2 funding that the council may have funding to consider the ones with public support into camera enforcement, once the consultation process ends?

Thank you

Kind Regards
