Thank you very much.

Yes, I saw the guidance and it's perfect timing for the presentation! I was over the moon to see my website included as a place to find out more about School Streets!

Enjoy the rest of the weekend.

Kind regards

Morning

The report I was referring to is an internal report for Cllr to agree our approach, a further report is being submitted to Cllr and Cllr next Wednesday detailing our Streetspace for London COVID-19 Transport recovery plan which will include details around schools streets. This has not been published yet and the schools we have prioritised have not been informed.

For now I think it would be best to say that Brent are proposing to introduce several temporary school streets with the hope that they will become a permanent arrangement. We will be using experimental TMO's to implement these and the process will include a 14 day consultation with stakeholders, emergency services etc., residents and businesses will be sent a notification letter to inform them of what is happening and the first 6 months of the experimental order will be treated as the consultation period.

Have you seen the new TFL guidance around school streets? If not you can find it here <https://tfl.gov.uk/travel-information/improvements-and-projects/streetspace-for-london/appendix-8>.

We are planning to adopt their suggestion to use barriers etc. at first and then replace with CCTV if required (subject to funding).

Kind regards

Hi

Thank you very much. Great to hear Brent is continuing this programme.

I am doing a presentation on emergency school streets on Tuesday 2 June to a group of active travel campaigners as we are sharing ideas on how best to campaign and support local authorities throughout these challenging times. Is this in the public domain yet, can I include it in my presentation, please?

I had a quick look and don't seem to be able to find the report. Would be interesting to see what processes are used as presumably there will be no consultation in the normal sense, so perhaps Section 18? Will it be okay with you if I email Cllr directly?

Thank you for your continued work at the food distribution centre.

Kind regards

Hi

All good here thanks and hope you are too.

As I am still working at the food distribution centre I have contacted colleagues for an update and have been informed that Brent are planning to install more school streets and are including this in their bid to TfL for funding via the Streetspace programme. We are planning to use CCTV to enforce these but if the funding is not available then we will look at cheaper alternatives such as bollards or cones.

A report detailing Covid-19 measures for schools was agreed by Cllr yesterday and we will now begin engaging with schools to identify their individual needs and progress with the schools we have identified for the school streets programme (currently 11).

Kind regards

Hi

Hope all is well.

I know you must be very busy but is Brent going to propose something similar on School Streets, please?

Thank you
