Thank you very much. There are no missing bollard (as of date) only cut or missing padlocks.

Also, please unbag the road sign on Heber road, warning motorists that there is no way through Ashford.

I'm afraid I have seen footage of cars and vans mounting the pavement in all four locations on both sides (Ashford, St Michael, Ivy and Mora), not too sure what the solution is as preventive measures must not lead to obstruction on the footway for wheelchair users, double buggies, etc...

Kind regards

Hi

Thanks for your email. The contractor that provided the bollards and padlocks is closed between Christmas and New Year and will reopen on 4<sup>th</sup> January. When they return to the office, I will arrange for the following actions to be prioritised for the Olive Road Healthy Neighbourhood scheme:-

1. Install a new lockable bollard and padlock on St Michael's Road and provide a static bollard on the footway (on the right hand side looking towards Olive Road)
2. Provide a new padlock on Ashford Road
3. Provide a new padlock Ivy Road.

Kind regards

Hello,

A third lock is missing on the filter of Ivy Road (junction with Larch road).

Although, all three bollards are still up, some people on Facebook are entertaining the idea of seeing how difficult it is to lift them after being shown how to do it by the contractors when first installed.

Could someone been sent out to replace the locks, please?

Thank you  
Kind regards

Hello,

Not expecting this to be picked up immediately but just to let you know the bollard on St Michael's road isn't there any more and the kerbside bollard on Ashford road is unlocked. Both are part of the Olive road Healthy Neighbourhood.

Merry Christmas

Thank you

Kind Regards
