Good afternoon,

Just to give you the heads up. We have published [this blog post](#) over the scheme, we have made some recommendations in the spirit of constructive criticism. Our view is that it is great to have this scheme and we can build on it together. We will submit a formal response to the consultation in due time. One of our members filmed the entire stretch back and forth, giving a perspective from the handlebar and some sections are quite scary. Links are available from the post.

We are mostly concerned about the width (which seems to differ from the design drawing in places) and the lack of enforcement for vehicles parking in the lane.

The issue with buses is obvious too but I guess that will be a bit more tricky to address right now.

Thank you
