ENVIRONMENTAL PERMITTING (ENGLAND AND WALES) REGULATIONS 2016

EGDON RESOURCES U.K. LIMITED – NORTH KELSEY WELLSITE – APPLICATION OF ENVIRONMENTAL PERMIT

In accordance with the Environmental Permitting (England and Wales) Regulations 2016 Egdon Resources U.K. Limited (Egdon) have prepared an application for a Standard Rules SR 2015 No.1 onshore oil exploration environmental permit for the North Kelsey wellsite.

The purpose of the environmental permit application is for:

- The management of extractive waste not including a waste facility, generated from onshore oil and gas prospecting activities including drilling, coring, fall-off testing, acid wash and decommissioning but excluding any well stimulation or hydraulic fracturing, for the production of oil or gas, (using oil and water based drilling mud).

Egdon is committed to carrying out the permitted activities in accordance with the requirements of:

- The Standard Rules SR 2015 No.1 onshore oil exploration environmental permit;
- The Standard Rules SR 2015 No.1 Generic Risk Assessment; and
- The Standard Rules SR 2015 No.1 Waste Management Plan.

A payment of **£2,641.00** has been made to the Environment Agency w/c 20th January 2020. This fee has been calculated using *The Environment Agency (Environmental Permitting) (England) Charging Scheme 2019* and is broken down as follows:

- 1 x REF 1.8.2 – SR 2015 No.1 - onshore oil exploration.

Please note that the payment of the relevant fee for this application will be made by Egdon via BACS. The remittance number can be found on the applications forms.

Should you have any questions or require assistance please do not hesitate in contacting me.

Yours Sincerely
for **Egdon Resources U.K. Limited**
