Hi Vicky

Thanks for the email. That is fine with us.

Kind regards  
Stuart

Dear Stuart/Jay,

You may remember providing comments in relation to the above site. The Applicant has sought to address the concerns we raised (see our letter attached) and has amended the parking layout (see attached plan)

The Council has been late with consulting us so if you can't come back to me by the deadline, then please let me know,

Many thanks

Vicky

**Importance:** High

Dear Vicky Aston,

The original case officer for the above application is unfortunately on sick leave and I have been allocated the application in her absence. In going through the file I note that Sport England object to the application.

I did not find a record of the email below and attachments having been sent on to you to see whether the detailed parking layout attached would be sufficient to overcome the objection. Please could you review them and advise accordingly? If these details have been sent to you previously would you be able to forward your response directly to me please?

Kind regards  
Lydia

Stuart [REDACTED] and Jay,

Thanks for your responses on this. The plan shows the location of the containers and it is on an area that isn't marked out for parking. I have therefore objected to the application but indicated we will withdraw our objection if additional parking is provided as indicated on the site plan.

If you would prefer me to simply object to the location of the containers on the recreation ground, then let me know. This will mean that we expect the Applicant to look for an alternative location off-site for the containers.

I attach our draft response, if you have any comments, please let me know before Wednesday,

Thanks

Vicky

Thanks Stuart, this is useful as Rugby also highlighted an issue with this. The area of land affected is not used for anything at present but is adjacent to the car park. The RFU has suggested that they would accept the storage use if the additional parking spaces shown on the submitted plan are also secured with the development. Is this an approach you would support?

I was actually chasing a response on [REDACTED] Specifically I would like to know if there is any community use of the School site at present. It think the answer is no but It would be useful if the FA could confirm this and any involvement you have had or not with the new 3G pitch?

Many thanks

Vicky
