I've started researching the Merseyside Police Injury Award process as discussed at the meeting yesterday and have come across the attached FOI response from the Force issued in the last week.

I circulate it for your information as it is interesting to note that in 9 months they managed to review 502 recipients and in 477 cases nothing changed.

Hopefully we will get more information to aid the discussion at our next meeting on how they managed to carry out so many reviews in such a short timescale.
