Dear Simon

This is much better price wise. I will alert Essex Uni to the price I think we try for the Toucan crossing scheme.

Good morning Julie,

Please see below the estimated costings for the alternative proposal as per the drawings handed over last Thursday.

There are two options for consideration:

- **£245,000** - including the proposed 'Toucan' crossing facility as shown outside 'The Flag' public house
- **£165,000** - excluding the 'Toucan' crossing facility shown

Please let me know if you have any queries.

Regards,

Simon

Subject: Cyclepath Fire Station to Essex Uni

Dear All

Thankyou for meeting me last thursday re the above. Coincidentally I was meeting Andrew Nightingale Property Director at the University last friday and I took the opportunity to discuss a 106 payment re the cyclepath. Vincent Pearce Principle Planning officer was also there. Andrew was uneasy about 106

money from the car park application but said he would go back and look at early release funds from the knowledge gateway to get this path in place. I suggested that opposition to the car park would be tempered if the Uni came up with some if not all of the money for the cyclepath. Andrew declared the view of the Uni in support of this path and seemed willing to see how this could be progressed. How far away are you from establishing a cost for the revised scheme. I think the sooner we have that the more chance we have of getting some money while the car park plan remains outstanding.

Julie
