Hi All

Not sure why ECC should fund the land acquisition and it will be difficult since that funding would need to be requested from the LHP, as Tara has indicated. If it does need funding then I suggest it gets put on the scheme lists asap...but I'm not sure we know how much it will cost?

I'm quite happy to commission the works through a mandate but will need a cost code, so the S106 funding will require a Cabinet Member Approval to draw down the funding from CBC and added to the capital scheme list, if this hasn't already been done.

Regards

Morning Bev/Rosemary,

Please see email chain below between Martin Mason and Tara.

Tara has raised a query for you both in her email dated 16 August – are you able to respond please?

Thanks

Simon

Hi Tara,

Thanks for the update – you didn't actually copy your email to Bev and Rosemary (not sure which Rosemary you are referring to!) so will leave you to either forward your email or send them another one.

Thanks again.

Martin.

Hello Martin

The request for funding for land acquisition will need to go the Local Highway Panels and it will be for them to agree to fund.

I have copied Beverley and Rosemary into this e-mail so that they are briefed on the latest developments with this scheme. In order for the design and consultancy group to start working on this scheme we will need Rosemary to prepare and issue a mandate, which will then be developed in to a design brief by Beverley's ITPM team and will then be issued to us (D&C) so that we have a clear instruction to get underway. There is also a public path diversion with the landowner to resolve.

I am not sure what the view will be on funding for the design work; it may be that we need funding to get the design work underway. – Beverley & Rosemary please let me know your thoughts on this matter.

Thank you for your input into this scheme.

Thanks for this Tara.

No need for detail; just wanted an indication. ECC will fund any land acquisition, right?

Thanks again.

Martin.

Hi Martin

I wasn't expecting that!

The link will require some land acquisition. If you need some specific detail I will ask Simon to send on to you when he returns from leave on Monday.

Regards

Tara

Hi Tara,

It looks like I have secured £250k towards the above scheme on the back of the multi-storey car park planning application at the Uni.

Does the link require any CPOs? Either for the 2.5 or 3.0 metre options?

Thanks Tara.

Martin.
