Hello Jason

Hilltop, Clay Cross

Thank you for your email.

So we are able to offer you a co-ordinated response, any advice from the Mineral Planning Authority is best done through our pre-application service. I think after we had issued your Scoping Opinion, your planning agent, Chris Smith, was going to seek further planning advice. Rob Murfin (Head of Planning Services) will be attending the Public Meeting today, and will be happy to discuss this with you further.

Regards

David

David

I trust you are well.

In order to maintain progress on our sub consultants we need to move forward with the photomontages for the site. I am therefore sending through a drawing for discussion giving our proposals for the locations.

We are proposing to undertake four montages across the site at the following locations:

1. Brassington Lane to the north east looking south west across the site from elevation;
2. Peters Avenue to the south looking north onto Cut 1;
3. North Street to the south west looking east onto Cut 2/3 and to the stockpile generated from the first cut;
4. Woodland Way to the north west/middle of the site, looking north east to the upper cuts.

We would appreciate if you could have a look at the drawing and let us have any comments you may have from a planning perspective in order we can progress this element.

Kind Regards

Jason
