Hi Geoff,

I have put HPA back into the schedule for design, so we should receive a proposed design soon. We will have to discuss this area in due course, but to a certain extent it depends on whether or not the other sites get granted planning permission.

Regards,  
Duncan

Hi Duncan,

I have just read the Portland Road appeal decision and I can't say I disagree with the inspector. However, now that we have identified the HPA site I think it has a number of advantages over Portland Road. These are that the HPA site requires no loss of parking, the HPA site provides a more even distribution of docking stations, particularly taking into account the proximity of the Lansdowne Road site and TfL will retain the goodwill of local Councillors and residents.

For these reasons I would like you to continue with the HPA application. I would be grateful for your thoughts on this.

Thanks,

Geoff

Geoff Burrage

FYI – confirmation from Dunc re: Portland Road South

**From:** Robertson Duncan [<mailto:DuncanRobertson@tfl.gov.uk>]  
**Sent:** 09 November 2012 11:01

**Subject:** Holland Park Ave

Hi Sidonie,

As per our phone conversation, I just wanted to confirm that I am going to drop Holland Park Avenue (KC369) from the design and construction programme.

The reason for this is that Portland Road South has been granted planning permission and will be the site progressed in the area. I will keep Landsdowne Road in the programme, despite it being close to Portland Road south. I think that this area would benefit from 2 sites.

Regards,  
Dunc
