14-Jun-18 Our Reference: FOI2018/07863

Dear Mr Jones,

Thank you for your email of 7th June 2018 which requested the following information about the Typhoon Enhanced Collision Awareness System (ECAS):

Does this provide omni directional coverage, or just 'look-ahead'?

I am treating your question as a request for information under the Freedom of Information (FOI) Act 2000. A search has now been completed within the Ministry of Defence and I can confirm that information in scope of your request is held.

ECAS provides omni directional coverage but with additional layers of sensory input in the forward hemisphere.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact this office in the first instance.

If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.gov.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.org.uk>.

Yours sincerely,
DE&S Secretariat
