Tom

Don't we need something slightly stronger on the corporate manslaughter issue, ie the implication of saying it's inappropriate while police investigating is that it might become relevant in due course.

Shouldn't line be:

Issue of CM very unlikely to be relevant in this kind of case and unfortunate that it's been raised, particularly while the police investigation underway.

If asked about the threat of Corporate Manslaughter charges against TfL

These calls are unhelpful and inappropriate while the initial Police investigations are still being carried. It is a tragedy that a young cyclist has lost her life at this junction outside Kings Cross, and as usual, we have been working with the Police with their ongoing investigation into what happened. This is part of TfL's ongoing commitment to make roads safer for all users.
