Dear Scarlett

## 1. Background

I refer to your request for information under the Environmental Information Regulations 2004 ("Regulations"), received by us on 30<sup>th</sup> May 2018, which reads as follows:

I am writing from Camelford Town Council to request information for College Road, Camelford regarding tanker movements from the sewerage works. Would it be possible to find out how many times daily and weekly the tankers are making trips here please?
---

We have interpreted this as requesting tanker movement information for the period May 2017 to May 2018.

This letter provides the response to your request.

## 2. South West Water's (SWW) Response

I can confirm that SWW does hold information of the type you have requested.

Under the Regulations, SWW has a duty to individuals requesting information to make that information available on request. SWW must comply with this duty, unless one of the exceptions contained within the Regulations applies.

This information is enclosed.

All sewerage treatment processes produce a bi-product known as sewage sludge. This sludge must be removed from the site on a regular basis to enable the treatment process to function correctly. The table below shows the collections from site, May 2017 to May 2018.
