Subject: First analysis of white space responses
Attachments: SET - Summary of geolocation responses.docx

...is enclosed. Mostly positive, a few things we need to look into like the Vodafone comment that we need to specify OOB performance for EC processes to work ([REDACTED S.36]). All the responses are on the website if you want to look at individual ones.

We can chat on Monday about what this means for next steps, [REDACTED S.36].

William
