Dear Mr Killock

Freedom of Information: Right to know request

We are writing further to your email of 6 April 2018 in connection with the response we provided to you dated 5 February 2018, with the above reference, under the Freedom of Information Act 2000 (the Act). This is in relation to your three-part request about Nominet domain suspensions reports as follows:

"1 The policy document governing your domain suspension requests policy;

2 Any template for notifications made to Nominet for domain suspension requests;

3 Any graphics, URL or IP address used to show or host notices explaining that a domain has been suspended after a request made by each unit."

As detailed in our email of 9 April 2018 we are currently considering the points you have raised. However, we require your clarification in respect of our interpretation of part three of your request. We have understood this to be for any communications received by the FCA confirming that various domain names have been suspended following receipt of an application for suspension request.

We would therefore be grateful if you could please let us know if you agree that we have interpreted your request correctly or, alternatively, if you wish for us to consider any other information as falling within the scope of the third part of your request.

We look forward to hearing from you.

Yours sincerely

Karen Mullins
