In response to your recent request for information regarding;

I request that the Service's Standard Operating Procedure for Drink and Drugs Driving is disclosed.

North Wales Police do not have a Standard Operating Procedure relating to Drink and Drug Driving.

There is information in the Road Traffic Collisions Management Procedure;

Breath Testing

All drivers of vehicles involved in collisions to which police officers attend must be breath tested. Consideration will be given to Field Impairment Testing (FIT) and drug swiping where drugs are suspected. Officers trained to carry out these tests can be identified via the Force Control Centre (FCC).
