Compliance with the Regulatory Reform (Fire Safety) Order 2005

No comment at this time

Part B5: Access and Facilities for the Fire Service

The premises appear to comply with the guidance contained in part B5 section 11 in Volume 1, Dwelling Houses.

Fire Protection

Hampshire Fire & Rescue Service (HFRS) would strongly recommend that consideration be given to include the installation of Automatic Water Suppression Systems (AWSS) as part of a total fire protection package to:

- Protect life;
- Protect property, heritage, the environment and the climate;
- Help promote and sustain business continuity;
- Permit design freedoms and encourage innovative, inclusive and sustainable architecture.
- The use of AWSS can add significant benefit to the structural protection of buildings from damage by fire.

HFRS are fully committed to promoting Fire Protection Systems for both business and domestic premises. Support is offered to assist all in achieving a reduction of loss of life and the impact of fire on the wider community.

The premises will be inspected in due course in accordance with Hampshire Fire and Rescue Service risk-based inspection programme.

Any queries concerning these matters may be directed to the inspector named above but all correspondence should be addressed to me.

Please quote our reference number on all correspondence.

Yours sincerely
