Hi [REDACTED]

Many of the points raised appear to have been responded to before i.e. the baseline traffic data and request for additional hotel traffic data. We have previously confirmed that the baseline data includes all surrounding existing uses including Hertford House etc. The new data was requested in relation to the hotel, which has been provided and we will review and verify the information.

It would be the applicant's responsibility to provide this data (which they have). The Highway Authority in conjunction with the LPA would assess and verify the methods used and data presented (we can then carry out our own assessments using the methods and software used by the applicant as necessary), which would be normal practice for any planning application.

Hi [REDACTED]

I know you are off this week but just wanted to let you see the attached on your return when you are reviewing the application and additional information submitted by the applicant.

I am not sure if you would be able to address any of the points in the attached in your response to me in due course?

Kind Regards

Development Management Team Leader
