

Swale Borough Council

Freedom of Information Act Request

Ref: FOI No. 878

Date: 1st March 2019

Request and Response

I understand that the small group of people responsible for the current war memorial in Faversham undertook to have the area that was to be excavated, surveyed for Scarab beetles.

As you will be aware, beetles such as the Staghorn beetle are under threat and already extinct in some parts of Europe. Certainly, stag beetle larvae were present in the ground before the volunteers were evicted. I personally saw them.

I would be most grateful if you would provide me with a copy of the Environmental Assessment results.

Response

This was not a Swale Borough Council managed project so the Council does not hold a copy of this information. You will need to contact the Faversham War Memorial Committee directly because they hold all of the relevant information that you are asking for.
