Dear [REDACTED]

Apologies for the delay in coming back to you here.

Applications for extensions to Temporary Traffic Regulation Orders (TTROs) are made by ESCC directly to the Secretary of State (SoS) via the Department for Transport's (DfT) National Transport Casework Team based in Newcastle.

There is no formal means of objection to TTROs, but in applying for extension ESCC must advise whether any objections have been raised to the existing closure. It is my understanding that the SoS then has discretionary powers to consider any objections.

Reading between the lines here and being aware that you are a member of the Friends of Hastings Country Park, I suspect that your question might relate to the extension of the closure of the paths in Ecclesbourne Glen? If that is the case I can advise that in making the application for extension of the closure to the landslip affected paths we have notified the DfT of the representations made to the County Council by the Friends of the Country Park.

Kind regards

[REDACTED]

Hi [REDACTED]

A quick question on closed footpaths if you wouldn't mind. I noted that after a specified period of closure that further extensions then have to go to The Secretary of State. Could you please briefly explain this process (who can make the application etc.) and tell me if public representations can be made if such an extension request goes to the Secretary?

Many thanks
