Hi [REDACTED]

If you get the opportunity this afternoon to mention the below to [REDACTED] – that would be appreciated – I don't want to tie him up if you already have an audience with him.

BLUF – H&S and Fire Safety review required for the Public Use of the Estate content – if they can't review in time – can we caveat it as under review and provide a focal point for further information. Include requirement to review on CI register ...

Cheers me dear.

Very kind regards
[REDACTED]

Due to covid-19 I am working from home until further notice.

In line with the latest guidance, I am working offline where possible to ease the pressure on the IT network, so I will only be checking emails and Skype periodically. This means I might not respond as promptly as usual, so if you need my attention more urgently, please call me on [REDACTED]. If you receive this email at a time of day that is outside your regular working pattern, please do not feel that you need to respond or take any action outside of your own working hours.

Thank you [REDACTED] – I completely understand – your email box must be manic – and I am sorry to jump on you as soon as you return to office!

I am happy at this stage if under that particular area, if the SME thinks it needs a 'big review' we include a comment that this topic is under review and then signpost readers to the SME. This allows us to meet the deadline, and also protects MOD and the SME do you think this approach sounds fair, or is it an 'ask' too far?

I really need to have it back by first week in Feb in order for [REDACTED] to endorse it and give myself time to format and pass to our Editor for upload.

Very kind regards

Good morning [REDACTED]

[REDACTED] has forwarded the email trail below to me. I can't find a link to the document it refers to and there was no attachment. A couple of emails down [REDACTED] refers to the Germany position being out of date so I wanted to check that the issue was addressed but I've not seen anything about this one so I don't know if [REDACTED] actioned it. Are you able to send me a link to the document please so that I can check with the Senior Estate Surveyor for Germany?

Kind regards

I have read this one and added a few checks by TS and Parliament team, can you follow these up please?

In general I think this is already in quite a good condition but I will ask [REDACTED] to have someone in his team review this.

The Germany position is out of date, and hopefully Overeas can comment please.

Dear [REDACTED] – this is the Public Use email we spoke about on Friday – and if it had been confirmed as being tasked elsewhere.

The intent was to merge the content submitted by LMS some years ago, with the PG 06/09, but for swift progress now, I would suggest that the content that was submitted to [REDACTED] some years ago, is what is now reviewed. The link below takes whoever will be reviewing this now, to the review which OSeas completed.

Due to a number of high profile and high paced operational activities that I am involved in at the moment, which is why I am on line on a Sunday, I suspect that I will struggle to meet your timescale. There does not look to be any let up in the support that I am having to provide to the Home Office due to the number of clandestine arrivals to the UK – unfortunately the weather over the next few weeks is too good.

Dear [REDACTED]

I am having issues accessing this link – please could you send the actual document to [REDACTED] please?

Dear [REDACTED] – apologies, I have been having difficulty (3 blue screen crashes on one day alone!)

The document which [REDACTED] will forward to you is what we discussed last week. [REDACTED] has made a valiant effort in consolidating the content submitted to FMC a few years ago, with the PG 06/09, so if you could review and change as required, we would be grateful. If I could have a response by 28 Sep please that would provide a timely update for our next Steering Group.

Dear [REDACTED] I do have one question surrounding the different types of licence forms. Are you able to advise where these will all be hosted? The KiD is perfect for hosting forms, and we could link from the content straight to the template forms to provide consistency of approach? If they are held in the process repository, we will be able to link to that also.

Thank you

Very kind regards
