Subject: 850 Amendments

Sensitivity: Normal

Please find attached a few amendments for JSP 850.

I have put them into a Word document, so that one person can do all the amendments rather than risk messing up the document with multiple people adding changes.

If you want me to do all the amendments, just let me know and let me have yours, and I'll add them all and let you know.

I've fleshed out the NI section a bit and separated NI and Overseas, just to make it look a bit 'fuller', but there really isn't much more we can add that wouldn't just be flannel.

Cheers,
