Sensitivity: Normal

[REDACTED]

Still content with the Scottish element. No further comments from me.

Cheers,

[REDACTED]

[REDACTED]

Comments, etc added. 2 main points:

- Pleasingly I've already changed the policy wording ref. open access / coastal access which means ECP delivery will not be hampered. Perhaps we did actually discuss this all those years ago!
- The biggest amendment / change relates to s31(6) and is prompted by the attached correspondence from [REDACTED] following an email from [REDACTED]. Rather than just pull this straight out I thought I'd raise the question first to ensure all are content with the attached advice.

I'm happy that the document serves its purpose, but following on from our conversations regarding growth in more strategic thinking for the team I am conscious that there are potential areas which I would like to add. Something for the future.

I think Scotland is up to date. Other than terminology, nothing stuck out. Unfortunately it is Scotland's long weekend this week, but I've copied in Scott to allow him a quick look on Tuesday.

Regards

Importance: High

Dear Heads of Sheds....

As discussed at the last C1 gathering please find attached the relevant elements of the proposed JSP 850 received to date. Any marked final should be as on the web copy, those still marked draft are as yet unpublished. As explained at the C1 meeting I have only agreed that we will check the content for relevance and to ensure that any legislation references are up to date. I do not expect (or want!) you to put into any new formats etc. That is absolutely for FMC and our DIO SAPT colleagues to do. I do not see this as a huge ask so your soonest turn around gratefully received. Please let me know as soon as your bit is done!

The documents are stored [here](#) so please update these so I can make a consolidated return. As I see it the "owners" are:

1. Natural Environment - Stuart (Supported by Olly and Moira)
2. Conservation Groups - [REDACTED]
3. Historic Environment – [REDACTED]
4. Public Access – [REDACTED]
5. Coastal Marine Planning – [REDACTED]
6. Forestry and Arboriculture – [REDACTED]
7. Notifiable Animal Disease – [REDACTED]
8. landscape - [REDACTED]
9. Wild Deer – [REDACTED]

Thanks in anticipation of your quick attention and, as always, happy to discuss...

Regards

Subject: 20190510-Content-For JSP-850-O

Dear [REDACTED]

Thank you again for your offer of help. Please find attached the policy documentation as discussed.

I have attached what I think falls under your area. Apologies if I have included some which is not.

As you can see, some are the final version, and some are still showing as draft. Where there were drafts and final versions of the same policy, I have only attached the final version.

I am unsure if you are able to access the FMC SharePoint site where they can be located, but this is the link to try:

<https://modgovuk.sharepoint.com/teams/11121/jsp850/Forms/AllItems.aspx?viewpath=%2Fteams%2F11121%2Fjsp850%2FForms%2FAllItems%2Easpx>.

I will forward separately details of any gap analysis, but I think this will be minimal, and thought this was enough to send in a single email.

I have taken this opportunity to also include our guidance notes, which you may find helpful.

I am more than happy to come to West Down if you feel it would be useful, and please don't hesitate to contact me if you need any further information of help. Would it be useful if I contacted you next week to discuss timelines and the detail which I have forwarded?

Very kind regards
