

The University is grateful to its external examiners for their completion in full of this report. The report consists of questions where external examiners are asked to choose from a fixed range of responses, and questions where free text comments are requested. In respect of the latter this form includes a number of prompts for consideration/discussion as 'greyed out' text. These are intended to be suggestive rather than prescriptive, and external examiners are invited to comment on any issue they feel is relevant. To complete the free text questions, please click on the relevant section and you will automatically 'over-type' 'greyed-out' text.

External Examiners should feel free to make any comments they wish, including observations on teaching, module/programme structure and content, and degree schemes as well as assessment procedures. As the reports of external examiners are discussed widely within the University, we should be most grateful if external examiners would ensure that individual staff members or students are not referred to by name in their reports. Reports will normally be available for discussion widely within the University (including with student representatives via staff-student consultative committees), and may also be requested by certain external bodies, including the Quality Assurance Agency. An additional separate and confidential report may be sent to the Vice-Chancellor if the examiner considers this to be appropriate.

In accordance with the practice at most universities, payment of the examiner's fee is conditional upon receipt of satisfactorily completed Annual Report Forms and at the end of term of office of the separate final report. External examiners are requested to submit their forms within 4 weeks of the final meeting of the Board of Examiners.

Note: moderators of undergraduate programmes in Combined Honours and Natural Sciences are asked to complete only the sections of this form which are applicable.

3. Please give further details about any aspects of the programme or its assessment relevant to the topics covered in question 2a-2i above. In particular where you have indicated 1 or 2 on the scale to questions 2a-2i please explain what you felt could be improved; where you have indicated 3 it would be helpful if you could particularly highlight examples of good practice.

There is no need for further comments.

4. Please comment on the quality of students' work, the quality of the awards made (including the classes for undergraduate degrees and distinction for postgraduate degrees) and comparability with other institutions.

- The quality of the student assessments that I have seen was high and definitely comparable with the achievement of the students of my institution and of those institutions where I held a position of external examiner previously.
- This year again I found that summative assessments were particularly good. The great majority were thoroughly researched, convincingly argued and well written.

MANAGEMENT OF THE ASSESSMENT PROCESS

5. Please comment on the management of the assessment process, e.g. the provision of samples of student work, the operation of the Board of Examiners and the level of involvement of the external examiner in the assessment process.

- The process of assessment was very well managed by all: it was both thorough and timely.
- Also, the work of board of examiners was conducted smoothly; this is mostly due to the chair who knew to let people have their say while keeping the decision-making process moving.
- The only concern that may be expressed regards the use of discretion by the Law school when awarding degree classification. This resulted in discussing more candidates for a first class than would the practice in a number of other institutions. Still, the number and quality of first class degrees was comparable with those granted by other institutions.

PROGRAMME(S) DESIGN AND OPERATION

6. Please add any comments on other aspects of the learning, teaching or assessments of the programme(s). These may include: curriculum design; modes of learning, teaching or assessment; learning resources; links between research and teaching; suitability of the programme as preparation for study at the next level (Masters or PhD as appropriate); suitability of the programme as a preparation for employment; alignment with the requirements of professional bodies (if applicable).

Key issues are likely to include:

- the structure and content of the modules and programmes under consideration, as detailed in the programme specifications and module outlines and other documentation provided to you by the department/school;
- whether the curriculum for the modules and programmes under consideration remain current, valid and relevant;
- whether the learning, teaching and assessment methods used in the modules and programmes under consideration support students in achieving the intended learning outcomes for the programme;
- whether there is evidence of the influence of research on the curriculum and learning and teaching of the modules and programmes under consideration (e.g. curricula informed by current research, opportunities embedded within the curricula for students to undertake research methods training and/or their own independent research)

COLLABORATIVE PROVISION

THESE QUESTIONS NEED ONLY BE ANSWERED BY EXTERNAL EXAMINERS FOR COLLABORATIVE PROGRAMMES (e.g. articulation agreements, validations, multiple awards, joint awards)

7a. Were you offered sufficient information about the collaborative partnership?

N/A

7b. Did you have the opportunity to compare the achievement of students on the collaborative programme with those of students taught on programmes delivered solely by the University? If YES, were the standards achieved by students on the two types of programme comparable? If NO, do the academic standards achieved by the students indicate that appropriate learning opportunities are being provided through the collaborative partnership?

N/A

GOOD PRACTICE FOR DISSEMINATION

8. Please highlight any examples of good or effective practice that you have identified in the programmes and modules which you examine, that are worthy of particular commendation and wider dissemination within Durham University.

For example, this might include:

- innovative modes of learning, teaching and assessment;
- particularly helpful documentation/guidance relating to the assessment process, e.g. assessment criteria, mark proformas
- effective practice in the management of the assessment process, including the operation of boards of examiners;

PROGRESS ON RECOMMENDATIONS MADE LAST YEAR

9. If you raised any issues for further consideration or action in your last report, have these been effectively considered by the academic department/school in which you are
