Annex 3 Specification

1. INTRODUCTION & PURPOSE

1.1 The UK-India Tech Hub

The UK Government's Department for Digital, Culture, Media & Sport (DCMS) has been granted up to £3m of Prosperity Funding to deliver the UK-India Tech Hub. The Tech Hub will have a team in Hyderabad (as well as in Bangalore, New Delhi and Mumbai). The UK-India Tech Hub is a strand of the UK-India Tech Partnership, a Prosperity Funded programme announced by Prime Minister May and Prime Minister Modi in April 2018 to drive growth and prosperity.

The UK-India Tech Hub is one of a global network of international tech partnerships developed by DCMS. The UK-India Tech Hub will help **to grow India's tech ecosystem, create jobs and drive inclusive economic growth and poverty reduction.**

The aim of the Tech Hub is to:

1. Support the growth and development of entrepreneurs, SMEs and the tech sector in India;
2. Work with partners from the local tech ecosystem to identify digital tech skills and capability gaps in India and support and develop programmes to address these gaps; and
3. Facilitate and create new innovation partnerships between digital tech entrepreneurs in India and the UK tech sector, with a particular focus on innovations that can help to solve social and development issues.

The UK-India Tech Hub team will be recruited from the local tech sector and help develop this sector by delivering activities such as training, mentoring, advice and related support. Whilst the focus of the UK-India Tech Hub will be to drive inclusive growth and poverty reduction we anticipate new innovation partnerships will bring secondary benefits of increased productivity and growth, and trade and investment to international companies, including UK companies.

1.2 The Prosperity Fund

The Prosperity Fund was announced in the 2015 Strategic Defence and Security Review and represents a key component of the prosperity pillar of the UK Aid Strategy. It is a £1.3bn Cross-Whitehall Fund that aims to reduce poverty through inclusive economic growth. Many developing countries, including middle income countries where around 70% of the world's poor live, still face considerable challenges such as rapid urbanisation, climate change and high and persistent inequality, including gender inequality, which can lower long term growth prospects.

The Prosperity Fund supports the broad-based and inclusive growth needed for poverty reduction to make development sustainable in line with the International Development Act (2002), the Gender Equality Act (2014) and the Sustainable Development Goals (SDGs). The UK has expertise in a range of sectors that countries will need to reform as they develop, including education healthcare, finance and infrastructure. Helping Partner Countries develop these sectors and improve their business environment will give firms and people, greater opportunities to work in a stronger, more productive economy.

The Fund also seeks to improve trade links between Partner Countries and the rest of the world, including the UK. Higher growth in a partner country offers greater trade opportunities for international and UK business.

SCOPE OF REQUIREMENT

DCMS has existing research from the UK-India Tech Partnership Business Case. This project will build on the findings from the Business Case with a particular focus on Hyderabad. DCMS will share relevant information from the Business Case with the Supplier.

The Supplier shall:

- Map current activities taking place in the digital tech ecosystem in Hyderabad as per the hub's three aims but also specifically those that are using technology to drive inclusive and sustainable economic growth and poverty reduction in Hyderabad. This will include providing an overview of what other UK Government initiatives are taking place; activities of donors such as the World Bank/USAID, OECD, EU; other countries as well as any privately funded initiatives **(10%)**.
- Facilitate engagement activities with key stakeholders (workshops/focused meetings) in Hyderabad to further understand potential opportunities (and avoid duplication), including specific sectors to focus on, to enable primary benefits of inclusive growth in India and secondary benefits of potential growth for UK and international companies based on the three aims of the Tech Hub **(20%)**.
- Use this analysis to develop up to 5 potential options of programmes that are available to leverage digital and tech interventions for inclusive growth in India to enable the Tech Hub to deliver under the three key aims. These options will need to take into consideration **(60%)**:
 - the Prosperity Fund's objectives of poverty reduction and gender equality - considering the International Development Gender Equality Act 2014 but also opportunities around our secondary objectives promoting UK and International companies
 - costings
 - an indication of resource allocation
 - a description of any partners that the Tech Hub team should be engaging with or partnering with to deliver the programmes identified.
- Provide some initial prioritisation of these options **(10%)**:
 - indicating the anticipated benefits of delivering these interventions
 - who the Tech Hub should be partnering with to deliver these activities
 - ensuring the recommended interventions are in line with the International Tech Hub Network's Theory of Change (please see Appendix D)
 - outlining strategic fit, outcome, likely impact and value for money.

The programmes identified need to be compliant with the International Development Act 2002 (including the International Gender Equality Act 2014), OECD Development Assistance Committee roles on Official Development Assistance (ODA) and should be based on meeting the needs of host countries with consideration for political will.

To deliver this work, the Supplier:

- Must have expertise in digital and tech innovation and issues relating to barriers to inclusive economic growth in Hyderabad.
- Is encouraged to think broadly and innovatively to assist the development of interventions that will deliver pro-poor, impactful interventions suitable for the Indian context.

- Will need to undertake significant stakeholder engagement with key players in the Hyderabad digital tech ecosystem, therefore knowledge of the players in this sector is essential.
- There will be no requirement for travel to or within the UK and all weekly update meetings to discuss progress and milestone meetings will take place over video/teleconference with the DCMS UK-India Tech Hub team (Head of the UK-India Tech Hub and UK-India Tech Hub Manager) based in the UK. Time differences will be considered when scheduling these meetings.
