

Freedom of Information – Response – 3236

Request:

Please can I request a full current up to date fleet listing for Suffolk Fire and Rescue Service along with call signs (present and near future National Callsigns) for the said vehicles to include all operational appliances, reserve appliances and ancillary vehicles and officers.

I would also like to request a list of all disposed of vehicles, the date disposed and where they were disposed to for the last 10 years.

Response:

Please see attached a current fleet list for SFRS which includes the call signs for each vehicle.

Also attached is a list of vehicles that have been disposed of since 2006. No previous records are held.
