

Schedule of works relating to:

Premises Name: Zorbas

Address: 35 – 36 Leinster Terrace, London, W2 3ET

Date: 19th May 2016

The schedule should be regarded as **advisory and not a condition**. This is not intended to be an exclusive list and you may find during the course of work that additional matters are found which require your attention.

- (1) Thoroughly clean the entire food premises including the floors, walls, shelving, equipment and food contact surfaces to remove food debris, any mice and rat droppings and cockroach faeces, packaging materials, dirt, detritus and greasy/blackened deposits. After cleaning, sanitise all surfaces that come into contact with food;
- (2) Dispose of all open food that is contaminated or potentially contaminated by mice, cockroaches and rats.
- (3) Remove and dispose of any obsolete items from the food premises.
- (4) Ensure all remaining foodstuffs are sealed in lidded containers to ensure that food is protected from sources of contamination, particularly mice, cockroaches and rats.
- (5) Enlist the services of a reputable pest control contractor to help control/eradicate the mice, cockroach and rat activity and follow all recommendations made by the pest controller, particularly those relating to proofing. We recommend a thorough pest survey to identify pest access points and proofing areas.
- (6) Ensure that any cracked or broken wall tiles are replaced as they may be providing harbourage for mice, cockroaches and rats
- (7) Ensure that any holes or gaps in the structure are filled to prevent any pest access.
- (8) Dispose of all out of date and mouldy food.
