I consider that I am unable to provide the exact numbers for some of the above categories as this would be exempt from publication pursuant to s 40 (2) FOIA. The numbers are very small (fewer than five) and individuals could be identified. We do not have the individuals' consent to release this information and would, therefore, be in breach of the Data Protection Act 1998.

Other includes (pre-employment, car parking permit assessments, overseas travel assessments and pregnancy risk assessments.)
