Please could you provide me with the details of all FOIs responses you have sent in the last 12 months.

Please feel free to do this in the most convenient way possible for you.

If for some reason you think this is likely to take 20 hours, then please could you send as many as you can.

I realise this is probably quite an unusual request, so please feel free to give me a call if you have any questions at all, or if I can help accommodate the request.

Kind regards,

During the 2015 calendar year how many temporary fixed position speed cameras were withdrawn from service that were positioned at a site where a temporary speed limit had been introduced because of road maintenance? (This figure should include all those temporary cameras that were installed and removed during 2015 but also those installed prior to the end of 2015 but subsequently removed during 2015.

For each of the temporary cameras referred to above please state:

- a) When was it installed?
- b) When was it removed?
- c) Where it was positioned?
- d) What was the original speed limit on the road?
- e) What was the temporary speed limit being enforced for the cameras?
- f) How many speeding motorists were issued with fines during the period of the temporary speed limit reduction?
- g) What was the highest speed or highest average speed recorded at this site and if known the make and model of the vehicle involved and the penalty imposed?

Please note that if this request would be better dealt with by another authority (eg your local speed camera safety partnership) then please forward it to them on my behalf.

For clarification purposes my question relates to temporary average speed camera systems used to enforce temporary speed limits as well as "normal" speed cameras. For average speed cameras please state the geographical start and end point of the cameras that monitored the stretch of road as well as the questions a, b, d, e, f and g above.

Yours Sincerely,

Taking the combined total for 2013, 2014 and 2015 calendar years, which three fixed position camera sites in your area were activated the most times regardless of whether the activation ended up with the issuing of a FPN, a driver speed awareness course or was discontinued for any number of reasons. Please provide me with the position of the camera and the number of activations where it "caught" suspected speeders. If you have the data please provide the number of fixed penalty notices issued as a result of these activations at each of these three site for the combined three year total.

Note: If it is easier to provide the data for the last three financial years ending with either the 2014/15 financial year or the 2015/16 financial year then I am content to accept that but please explain this in your response.

Note: If the data for your area is administered by a separate speed camera safety partnership I would like you to forward this request on to them, with my permission.

Yours Sincerely,

## **FREEDOM OF INFORMATION ACT 2000**

### **REQUEST FOR INFORMATION**

**Name:** [REDACTED]

**Address:** [REDACTED]

**Time Period to which the requests relate:** 1 January 2015 to 1 October 2016

#### Terminology

SOCMINT: Social Media Monitoring. Use of publicly available social media communications.

Digital Investigations and intelligence: see Digital Investigation and Intelligence Policing capabilities for a digital age. April 2015. Report.

OSINT: the collection, analysis and use of data from openly available, ofr intelligence purposes.

#### We note:

Annual Report Office of Surveillance Commissioners 2013 - 2015 paragraph:

5.32. Access to social networking sites by investigators in all public authorities is something we examine on inspections. Many, particularly the law enforcement agencies, now have national and local guidance available for their officers and staff. However, many local authorities and government departments have still to recognise the potential for inadvertent or inappropriate use of the sites in their investigative and enforcement role. Whilst many have warned their staff of the dangers of using social media from the perspective of personal security and to avoid any corporate damage, the potential need for a RIPA authorisation has not been so readily explained.

Annual Report Office of Surveillance Commissioners

5.42. Perhaps more than ever, public authorities now make use of the wide availability of details about individuals, groups or locations that are provided on social networking sites and a myriad of other means of open communication between people using the Internet and their mobile communication

devices. I repeat my view that just because this material is out in the open, does not render it fair game. The Surveillance Commissioners have provided guidance that certain activities will require authorisation under RIPA or RIP(S)A and this includes repetitive viewing of what are deemed to be “open source” sites for the purpose of intelligence gathering and data collation.

5.43. I am pleased to see that law enforcement agencies have provided and are continually developing detailed guidance to their officers and members of staff about accessing such sites, and the College of Policing is working closely with national leads and other interested parties to ensure a consistent and lawful approach.

5.44. Many local authorities have not kept pace with these developments. My inspections have continued to find instances where social networking sites have been accessed, albeit with the right intentions for an investigative approach, without any corporate direction, oversight or regulation. This is a matter that every Senior Responsible Officer should ensure is addressed, lest activity is being undertaken that ought to be authorised, to ensure that the right to privacy and matters of collateral intrusion have been adequately considered and staff are not placed at risk by their actions and to ensure that ensuing prosecutions are based upon admissible evidence.

## **Requests**

In our requests listed below we seek both national and local information e.g. national guidance and local guidance on use of social media intelligence.

### **1. For the time period 1.1.2015 to 1.10.2016**
