Dear [REDACTED]

Termination Notice - Contract with Gulf Resources Ltd (Case 726)

I am writing to give you notice that Department of Health & Social Care ("DHSC") is terminating the contract entered into with Gulf Resources Ltd ("Gulf") on 14th April 2020 (the "**Contract**") with immediate effect on the basis of the following material breaches:

- As part of the due diligence process you provided information (i) purporting to show Gulf's relationship to [REDACTED] and [REDACTED] and (ii) representing that Gulf had suitable arrangements in place with Chinese manufacturers to enable it to source the Goods. DHSC subsequently requested further evidence of the relationship with [REDACTED] and [REDACTED] and your contract with the Chinese manufacturers, both of which have not been forthcoming. Gulf warranted the accuracy of all information previously provided in accordance with Clause 7.1.24 of Schedule 2.
- Further Gulf warranted in Clauses 7.1.25 and 7.1.27 of Schedule 2 that it had the capability and had undertaken all necessary actions prior to execution to enable performance of the Contract. Gulf failed to provide an account to which DHSC could make payment and so the Contract cannot be performed. I note that the [REDACTED] paid to Gulf has since been returned to DHSC.

The terms of the Contract stated that the first shipment was to arrive 10 days after a confirmed purchase order. Your invoice, number [REDACTED] dated [REDACTED] confirms this. To-date, no Goods have been received. I note that there is now insufficient time remaining on the Contract for the Goods to be shipped and received. This letter constitutes the Department's Termination Notice for the purposes of Clause 12.4 of Schedule 2 of the Terms and Conditions applicable to the Contract and, accordingly, all obligations between us arising from the Contract or otherwise will immediately cease.

Yours sincerely,

[REDACTED]

Edward James
Deputy Director, Head of Procurement
Department of Health & Social Care
