Justin/Simon

I understand that you have not yet sent [REDACTED] the contact details for discussing Free Schools. I realise that we are hopeful that the Harpenden Secondaries will take a lead, this is what HPG want, but it would be useful for local relations if you could actually respond to them. The more information they have the better as they will then understand the obstacles and challenges.

Thanks
Terry

Dear Both

David Williams and I met the Chairman and 2 others from HPG this evening. I explained to them with secondary place planning and I hope that the 3 secondary schools in Town would work with HCC to provide a new school.

I did say to them there were many obstacles, initially actually getting governors to agree to move forward with a scheme. They were pleased that there was now something more concrete in the offing but they did want to explore what would happen if the secondaries did not want to play ball.

[REDACTED]

Simon, I guess that you are the man. Please could you set up such meeting with [REDACTED] please. [REDACTED]
[REDACTED]

Justin, are you able to give me a better feel for when the schools are likely to make a decision?

Many thanks
Terry
