**Phase 2b.**

This section of route has been subject to recent government decision and the work to finalise the design and the associated EIA to inform the Environmental Statement is currently ongoing. We therefore do not hold this information but can confirm that this detail will be reported in the formal Environmental Statement for Phase 2b when this work has been finalised.

A draft environmental statement for the original Phase 2b scheme (including the “Eastern Leg”) was previously published and could be used as reference. It can be found here: <https://www.gov.uk/government/collections/hs2-phase-2b-working-draft-environmental-statement>
